### **Ace Gallery, Los Angeles**

#### **Laddie John Dill, "Sand and Light"**

Featuring a variety of artists from the gallery's roster (including Gary Land, Melissa Kretschmer, Ruth Pastine), the booth is anchored by the Light and Space artist Laddie John Dill with the appropriately titled, "Sand and Light." Although restricted to a rather confined configuration, the installation revels in the Venice-CA-based artist's signature use of materials—sand, glass and light—which contrast the materiality of the earth's resources against the atmospheric effects of light.
